

The road to delivering an EMV device.

Upgrading to EMV chip cards

EMV is changing the way we accept payments. POS software providers and Mercury work to incorporate all the features of an integrated payment system with EMV. Here's what that looks like:

Software

EMV Payment application developed
dsiEMVUS™

Card brand certification through Mercury (Visa, MC, Discover, Amex)

POS software developer integrates and certifies with
MERCURY®
A Vantiv Company

Caution:
We certify POS systems on a first come first serve basis.

Hardware

EMVco certifies device
EMVCO

Device manufacturer ships devices to us

Keys injected and devices stocked at distributors

Value Added Reseller or Installer procures hardware and software and schedules install

Merchant receives EMV upgrade

Caution:
National EMV device shortage!
